

Assessment of Risk		Route of Administration	
DRUG:	ABACAVIR	Dosage Form:	ORAL LIQUID
Indicate status based on 2016 NIOSH List of Hazardous Drugs			
	Group 1: Antineoplastic dosage form that requires only counting or packaging (NO MANIPULATION)		
X	Group 2: Non-antineoplastic		
	Group 3: Reproductive hazard		
Reason for exemption:	Dispensed from pharmacy as final dosage form requiring no manipulation for administration. Practical alternative containment strategies and workpractices can be implemented to limit the exposure and protect personnel from ingesting, inhaling or touching this HazD.		
HAZARD	H351 – Suspected of causing cancer. H361 – Suspected of damaging fertility, or the unborn child. H318 – Causes serious eye damage H317 – May cause an allergic skin reaction.		
Risk Assessment Low
